

Petition in Support of Consecutive Sentencing

WHEREAS

- There are terrible crimes that demand more than a life sentence (25 years without parole);
- The Quebec City Mosque murders in 2017 were a attack on the Islamic community, where the murderer should spend life behind bars;
- Longer sentences for extremely dangerous criminals ensures the long term safety of the communities who suffered their crimes;
- The victims of horrific crimes should not have to worry about appearing at multiple bail hearings to stop the release of their abusers.

We, the undersigned citizens and residents of Canada call upon the House of Commons to:

- Publicly acknowledge the Quebec City Mosque murders in 2017 as a crime that demands more than 25 years behind bars as punishment;
- Support the consecutive life sentence law.
